BREASTSCAN

REVOLUTIONISING BREAST
CANCER SCREENING
THROUGH THE POWER OF
AI

Breast cancer is the most common cancer among women in Europe, and **early detection** is **key** to saving lives.

COMPREHENSIVE
DATASET OF

> 1 Million
Images

> 7500 proven
breast cancer cases

> 250,000
imaging
procedures

BreastScan will not only make valuable data available but also ensure that it is interoperable, secure, and ethically managed.

The project is closely linked to the European Cancer Imaging Initiative through the EUCAIM project, contributing directly to Cancer Image Europe — the European platform for cancer imaging data
